Chirundu Town Council
Semi Annual Internal Audit Reports
Key Internal Audit Recommendation and Implementation

Period: Jan 2025 to Jun 2025

No	Subject Matter	Audit Finding	Audit Recommendation	Management Action Taken
1	Governance (Established Committees & Meetings)	All standing committees held meetings during the period under review.	Management should continue to ensure that committee meetings are effectively conducted and that all resolutions are implemented to strengthen governance and accountability.	Management has developed annual meeting calendars, instructed secretaries to maintain accurate minutes, and introduced action trackers to monitor implementation of resolutions.
2	Budget Execution	Total revenue collection stood at 82%, while total expenditure reached 84% of the approved budget. This reflects expenditure running slightly ahead of revenue collection, posing a risk of overruns.	Expenditure should be closely aligned to actual revenue inflows, and budget performance should be reviewed regularly to avoid cash flow challenges.	Management has instituted monthly budget reviews and adopted a cash flow management framework to match commitments with collections.
3	Income - Own Source Revenue	Own source revenue collection stood at 78% of the budget, indicating underperformance due to low compliance in property rates and market levies.	Revenue mobilization should be enhanced through enforcement, automation, and broadening the revenue base.	Management has updated the valuation roll, intensified debt recovery, and introduced electronic payment platforms to improve compliance.
4	Accounting procedures and controls	Segregation of duties was weak and bank reconciliations were delayed, increasing the risk of errors.	Strengthen segregation of duties and ensure reconciliations are performed and reviewed promptly.	Additional staff were assigned to accounts, reconciliations are now conducted monthly, and reviews are performed by senior officers.
5	Stores management	Stock records were in place and consistently maintained, with access restricted to authorized personnel.	Continue proper management of stores through regular stock verification and adherence to authorization procedures for issuing consumables.	Monthly stock verifications are conducted, and stores access remains restricted to authorized personnel only.
6	Procurement procedures and controls	All procurement activities fully complied with procurement regulations; however, some documentation was incomplete.	Ensure strict adherence to the Public Procurement Act and maintain complete procurement records.	Staff have undergone training in procurement compliance, and all procurement requests are now processed through the Electronic Government Procurement (EGP) system.
7	Payroll management	Payroll processes were up to date, and employee personal files were complete.	Continue to ensure timely updates to payroll and maintain full employee records.	The payroll has been cleaned, personal files updated, and quarterly payroll reviews introduced.
8	Risk management	A risk register was in place; however, monitoring of mitigation strategies was limited.	Continue maintaining the risk register and strengthen mechanisms to monitor risks regularly.	Management has implemented a risk management framework, and departmental heads have been tasked with quarterly risk reporting.
