It was reported to the Committee that in Q1 2025, Chirundu district recorded 5 maternal deaths that translated into 181 per 100,000 live births. This unwanted scenario of increased maternal mortality in quarter 1 of 2025 was largely due to refusal by Apostolic Church that refused its members' from seeking conversional health services that resulted 2 maternal deaths. The other problem that the district faced was late referral of pregnant women from neighboring Zimbabwe and Kafue District that resulted into other maternal deaths.

The District Health Department had started consultation with all stakeholders that included Traditional leaders, church leaders, influential community leaders, community members to bridge the non seeking of

conventional medicine behavior by the Apostolic Church members that have resulted into undesirable health outcomes that included maternal deaths.

The Health Department also faced the breakdown an ambulance and resorted to using a utility vehicle as an ambulance which also broke down. After pleading with our Council Secretary, the department was given CDF monitoring vehicle to use an ambulance in a temporal basis until when the original ambulance was on the road running. Therefore, the Department of Health was fully appreciative of quick response from the Council Secretary to accord the temporal ambulance when our ambulance broke down.

Further was reported to the Committee that in the period under review, the office recorded three Neonatal deaths out of 908 live births. The causes of the Neonatal deaths were respiratory distress syndrome (RDS) secondary to meconium aspiration, severe birth asphyxia (SBA) and neonatal sepsis (NNS) respectively.

Implication/Risks

1. Lack of accountability and transparency in the management of public funds, which may undermine public trust.
2. Increased risk of misappropriation or loss of public resources due to the inability to verify the authenticity and purpose of the payments made.
3. Non-compliance with financial regulations, which may attract sanctions or penalties from oversight institutions and damage the institution's reputation.

Cause of Query

The missing payment vouchers could be attributed to poor record-keeping practices and possible mismanagement or deliberate concealment of financial documents.

Recommendation

1. Management should ensure that officers return or fully account for all missing payment vouchers and related supporting documents.
2. Strengthen record-keeping systems, including implementing tracking mechanisms to safeguard payment vouchers and ensure they are readily accessible for audit.

Upon a proposal by Councillor Norman Nalube and duly seconded by Councillor Wilfred Mweene,

It was

UNACQUITTED PAYMENTS

It was reported for consideration of the Committee that Regulation 68 (a) of the Public Finance Management (General) Regulations of 2020 states that when a payment is made to a person other than the one to whom it is due, proof of payment or receipt of funds or materials shall be evidenced by signing an acquittal sheet.

Risk of misappropriation or diversion of funds, as there is no formal evidence that the intended beneficiaries received the funds or materials.

Difficulty in verifying the legitimacy of expenditures, which can hinder the audit trail and affect financial reporting accuracy.

Cause of Query

The acquitted payments may be attributed to the failure to enforce controls requiring the use of acquittal sheets for third-party payments.

Recommendation

Management should ensure that all payments made to third parties are accompanied by duly signed acquittal sheets, in compliance with the regulation.

Upon a proposal by Councillor Wisdom Hakubija and duly seconded by Councillor Wilfred Mweene

It was

RESOLVED THAT,

The item on un acquitted Payments be **APPROVED** according to the recommendation by the Internal Audit.

Contrary to this regulation, during the period under review, various payments totaling K1,442,958.74 were made without the required supporting documentation. ***See attached Appendix 4***

Implication/Risks

Increased risk of fraud or misappropriation of public funds due to lack of verifiable documentation.

Lack of transparency and accountability in the procurement and payment process.

Non-compliance with financial regulations, which may result in sanctions or a qualified audit opinion.

Cause of Query

The unsupported payments may be attributed to the failure of responsible officers to attach the required supporting documents prior to processing payments.

Recommendations:

Management should enforce strict adherence to Regulation No. 62 (b) by ensuring that all payments are supported with original and relevant documentation.

Strengthen internal controls and supervision over the payment approval process to prevent unauthorized or undocumented transactions.
