COUNCIL CHAIRPERSONS COMMUNICATIONS AND ANNOUNCEMENTS

The Ordinary Council meeting was convened in accordance with the Local Government Act No. 2 of 2019, section 15 (1). It was a forum that formulated policies for execution towards development and well coordination of functions of the Council. Therefore, he implored everyone to accord the meeting the dignity that it deserved and participate meaningfully and reasonably. The Councillors, motions presented for debate had to be debated in clear view of the standing orders and not in any other way.

2. Communications;

During the period under review, the following were the communications and the under listed visited the office of the Council Chairperson:

On 3rd April, 2025 the following people from DAPP Lusaka paid a courtesy call.

1. Stanely Tolopa
 2. Susan Mbelenje
 3. Karoline Akatene
- On 7th April, 2025 the ZULAAWU delegation led by the ZULAAWU president Mr. Emmanuel Mwinsa, the secretary general Mr. Machushi Mulenga and Enock Makai the provincial ZULAAWU chairperson paid a courtesy call.

• CHIRUNDU TOWN COUNCIL CIVIC CENTRE ON THE VERGE OF COMPLETION

Chirundu Town Council (CTC) had injected more than k1million using its locally generated revenue towards the completion the construction of its civic center, the civic center would address challenges associated with office space. the civic center which was on the verge of completion and more than 90 percent of works had been done had stalled for many years until Chirundu council negotiated for the completion of the building.

• OFFICE BLOCK

Chirundu Town Council was also finalizing on the construction of a double storey office block for commercial purposes which would in turn plough back to the community through service delivery. the double story office block would enhance revenue generation after being rented out, as the local authority remained committed to identifying areas to invest the resources that would help get quick returns on investment (ROIS).

• UPDATE ON CONSTITUENCY DEVELOPMENT FUND

He updated the august house that the constituency development fund Committee allocated more than 6million towards the bursary component under CDF, empowerment grants for the year 2025 and 2024 empowerment loans also got more than k6 million and the projects got more than k17 million. this translates to various allocations made towards all the CDF components.

• CASH FOR WORK

More than 7000 people had so far benefited through government's cash for work (CFW) programme in Chirundu District from august 2024 to December 2024 at a sum

of k4, 747, 200. Chirundu Town Council (CTC) recently received **K1,646,366 million** towards the implementation of the cash for work (CFW) programme in Chirundu District as part of the drought response policies formulated by the government. following the drought crisis induced by climate change and el nino, Republican President Hakainde Hichilema declared the drought situation a national disaster which had so far affected 87 Districts in the Country among them, Chirundu District.

- **ACQUISITION OF NATIONAL REGISTRATION CARDS**

He emphasized on the need for citizens to acquire national registration cards (NRCS) in order for more citizens to benefit from the deliberate policies the government had put in place such as the social cash transfer and cash for work programmes. he urged all to continue conveying the message in our communities to ensure that more people come on board.

- **REQUEST FOR THE UPGRADING OF 30.5 KILOMETERS OF TOWNSHIP ROADS IN CHIRUNDU DISTRICT.**

He updated the august house that on 12th June, 2025 my office requested the office of the honorable minister of ministry of local government and rural development regarding the upgrading of 30.5 kilometers of our township roads, this was against the district's terrain and hilly which resulted in high cost of annual road maintenance in Chirundu District. the office of the minister was requested to finance the upgrading of 30.5 kilometers to bituminous standard as it was believed that upgrading of these roads would greatly support boarder economic and social development goals.

below were the proposed roads;

S/N	NAME OF ROAD	DISTANCE (KM)
1	Chiawa road	7
2	Civic Centre road	5
3	UCZ to Chiawa road	0.8
4	22 corners to Civic Centre road	1.5
5	hospital road	3

ENVIRONMENTAL HEALTH

(1) FOOD INSPECTIONS

It was reported for the information of the Committee 17,981 food items were inspected in Q2, 2025. Out of those, 17,492 (97%) food items were complying, and the remaining 489 (2.7%) non-compliant food items were seized and disposed of. The most common causes of seizure were expiry, not labeled in English and dents on food containers.

(2) WATER SAMPLING

It was reported to the Committee that 113 water samples were taken during the period under review. This included 10 bacteriological samples and 103 chemical analysis samples for quality monitoring. Among the 10 bacteriological samples, the department was still waiting for results from the Laboratory while those for chemical analysis all passed the test. All the water points that passed the tests still receive adequate attention and health education was still given for prevention of possible contamination.

(3) PREMISES INSPECTION

It was reported to the Committee that a total of 871 public premises were inspected in Q2 2025: these included butcheries, water packaging plants, bars, restaurants and other types of shops. Of these, 728 (84%) were following public health standards. Those not in compliance either had poor ventilation, no food handlers, compromised structures (cracks) or poor sanitation facilities. 143 non-compliant premises were served with warnings. The rest were given verbal warnings and necessary technical guidance for improvements.

(4) MALARIA

It was reported to the Committee that malaria incidence in Q2 2025 was 13.2/1,000. The district continued to implement malaria control interventions in the quarter under review to reduce Malaria incidence. The major activity in Q2, 2025 was distribution of the long lasting insecticide treated nets (LLINs) to pregnant mothers, which was conducted throughout the whole district. A follow up order was made and the district was later supplied in Q2, 2025.

(5) MONKEY POX OUTBREAK

It was reported to the Committee that the district experienced an outbreak of Mpox during the quarter under review. The affected communities were medium cost and Apollo with confirmed cases. Sialuselo, Machavika and Sikoongo have been reporting cases of Chicken pox and as such they are treated as suspected Mpox as they are proxy to Mpox. All the 2 confirmed cases were under home isolation. Managed to do contact tracing and listed 49 contacts.

(6) MATERNAL AND CHILD HEALTH

It was reported to the Committee that Chirundu District Health Office had continued to offer support to all the facilities to conduct outreach programs. In the quarter under review (QTR 2 2025), out of a target of 784 children under one (1) year, 543 were fully immunized giving a percentage coverage of 69.3 %.

In the same period the district participated in the national Child Health week from 23th to 28th June 2025. It was report that out of a target of 16, 086, a total of 16, 344 children were given Vitamin A supplementation giving a coverage of 101.6 % and out of a target of 14,304 children, 14,127 were dewormed giving a percentage coverage of 98.3 %. Further to that 507 girls were vaccinated against the Human Papilloma Virus (HPV), which causes cervical cancer.

The district also participated in the Safe Motherhood week from 19th -23rd May 2025 in which many Health services were provided thus Family planning, Breast cancer screening, HIV testing and linkage to care to mention but a few in a quest to improve maternal and neonatal outcomes. It was submitted further to the Committee that the district participated in the African Vaccination week from 14th -20th May in an effort to close up on immunization gaps to prevent disease outbreaks.

Regarding maternal deaths, the district did not record any maternal deaths in the quarter under review.

Lastly, the district did host the International day for Nurses for the first time under the theme **"Our Nurses, our future, caring for Nurses strengthens economies"**. More than 500 delegates attended the event which was colorful. It was Submitted to the committee that the district Health Office remained grateful to Chirundu Town Council and other stakeholders for the massive support received in monetary, material as well Human resource.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Environmental Health be **NOTED**.

HEC/53/07/25

SOLID WASTE MANAGEMENT

It was reported for the information of the Committee that approximately 2,780 tons of solid waste was disposed of by the Local Authority at the dumpsite. The disposal was done by a Skip truck, Tractor, Front-end loader and Tipper truck. Further, the Department wished to submit that waste management in the district required collective efforts, the active participation of Civic leaders to involve the public in raising awareness of good sanitation and hygiene practices by reporting all careless waste disposals to the Local Authority.

Upon receipt of the item,

It was,

RESOLVED THAT,

**MINUTES OF THE ENVIRONMENTAL PLANNER
COMMEMORATION OF WORLD ENVIRONMENT DAY**

It was reported for the information of the Committee that on the 5th June every year, the entire globe celebrates World Environment Day (WED). Similarly, this year, Chirundu Town Council in collaboration with other stakeholders commemorated the day under the theme **"Beat Plastic Pollution"**. The focus was to sensitize communities to use plastics in a sustainable manner without allowing it to end up at the dumpsite and in the rivers. The commemoration was characterized by a radio program, a day before the event to inform the public on what environment day was all about and the focus of the year's theme. The celebration was held at Sikoongo secondary school side by side the agricultural show whose theme was adapting to climate change. Thereafter, the pupils for both Sikoongo Secondary and primary schools held a debate and quiz to highlight the year's theme.

Upon receipt of the item,
It was,

RESOLVED THAT,

The item on Commemoration of World Environment Day be
NOTED.

HEC/59/07/25

MINUTES OF THE DIRECTOR OF AGRICULTURE SERVICES

HEC/60/07/25

FARM POWER AND MECHANISATION

It was reported for the information of the Committee that the Agriculture sector was mostly dominated by smallholder farmers and characterized by low productivity, this was due to a number of factors, one of which was

low levels of Agriculture mechanization. Government developed the National Mechanization strategy to run from 2024 to 2028 with the overall Objective of increasing Agriculture production through increased access to Farm Power and Mechanization. The Mechanization 360 campaign was an output from the strategy and selected districts across the Country had been equipped with Mechanization equipment stationed at Farmer Training Centres and Institutes for Farmers to access at reasonable prices for increased production. Chirundu District was a beneficiary of the initiative.

1.1 Access to Mechanization Services

It was reported to the Committee that during the period under review, mechanization services were accessed by a total of 25 farmers, including one from Kafue District. These services facilitated the cultivation of 15 hectares of land. Access to mechanization services aims to reduce the labour burden on smallholder farmers, increase land productivity, and promote timely agricultural operations. The objective was to improve efficiency and expand cultivated area through the use of tractors and other mechanized equipments.

1.2 Training in Farm Power and Mechanization

It was reported to the Committee that during the period under review, the department trained 16 field officers in Farm Power and Mechanization. The trainings were held at Lusitu Farmers Training Centre (FTC). This training focused on the use, maintenance, and management of agricultural machinery and power sources. The objective was to enhance officers' technical capacity to support farmers in adopting appropriate mechanization technologies and reduce drudgery in farming.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Farm Power and Mechanisation be **NOTED**.

HEC/61/07/25

IRRIGATION DEVELOPMENT

3.1 Irrigation Deployment Capacity Building Training

It was reported for the information of the Committee that the department trained 16 officers in Irrigation Development. The training covered irrigation system design, installation, operation, and maintenance. The objective was to build capacity among officers to support farmers in adopting sustainable irrigation practices, thus increasing water use efficiency and enabling all-year-round crop production.

3.2 Irrigation Projects – Tauya Irrigation Scheme

During the period under review, the department continued routine monitoring of irrigation projects across the district. One of the key projects monitored was the Tauya Irrigation Scheme. According to the January 2025 update, the scheme recorded impressive production, selling 29.12 tonnes of bananas to the nearby market mostly from Chikankata Turnpike, generating ZMW 216,900.00 in revenue. This achievement reflects the scheme's growing contribution to household incomes and local food security. Continued support in post-harvest handling, market linkages, and value addition is recommended to sustain and increase farmer benefits.

3.2 Borehole Equipping under UNDP-SCRALA Project

It was reported to the Committee that during the reporting period, the contractor engaged under the UNDP-SCRALA Project was actively working on the equipping of nine boreholes. The following activities were successfully completed:

- Flushing and cleaning of boreholes
- Drilling of new boreholes to replace collapsed ones

Ongoing activities at the sites include:

- Construction of protective fencing
- Erection and mounting of 10,000-litre plastic water storage tanks
- Construction of domestic water kiosks
- Installation of livestock drinking troughs
- Fabrication and installation of solar power fields at each site

These efforts were aimed at enhancing water access for both domestic and agricultural use, as well as improving livestock productivity. The sites under this intervention were: Jamba, Nabanda, Sikoongo, Chiwena, Hachipilika, Mweemba in Chikanzaya, Chikanzaya Central, Chiulaula, and Ibbwemunyama. Overall, project implementation was progressing well, and full completion was expected in the coming period.

3.3 Lusitu Irrigation Project (IDSP)

It was further reported that the Lusitu Irrigation Scheme, under the Irrigation Development Support Project (IDSP), remained a priority for monitoring during the period. A key development was the construction of a new water abstraction system from the Zambezi River using a floating intake pontoon, aimed at improving the reliability of water supply for irrigation. The pontoon was being constructed at a cost of **ZMW 2,220,055.00** by KAFC Contractors of Lusaka.

In preparation for irrigation activities, farmers in Mushungu Ward, Sub center Agriculture Camp were sensitized and mobilized to prepare their

fields. Once the system was fully operational, 410 farmers were expected to benefit directly from year-round irrigation, leading to improved productivity and livelihoods.

It was,

RESOLVED THAT,

The item on Irrigation Development be **NOTED**.

HEC/62/07/25

CLIMATE SMART AGRICULTURE

It was reported for the information of the Committee that the department met its target by training 16 officers in Climate Smart Agriculture (CSA). The trainings were conducted at Lusitu FTC. Additionally, a total of 1,338 farmers (719 males and 619 females) were trained in CSA practices during the period under review. CSA training focused on conservation agriculture, integrated soil fertility management, agroforestry, and climate risk management. The objective was to equip officers and farmers with skills to adapt to climate change, reduce greenhouse gas emissions, and increase resilience and productivity.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Climate Smart Agriculture be **NOTED**.

HEC/63/07/25

CROP DIVERSIFICATION PROMOTION

It was reported for the information of the Committee that the department trained 16 officers in Crop Diversification. The training emphasized promotion of high-value and drought-tolerant crops beyond maize. The objective was to improve food and nutrition security, income generation, and climate resilience among farming households.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Crop Diversification Promotion be **NOTED**.

HEC/64/07/25

EXTENSION SERVICE DELIVERY

It was reported to the Committee that during the period under review, the department conducted monitoring visits to all agricultural blocks and backstopped 8 Agricultural Camps. However, a major challenge observed was the poor condition of transport facilities, with most motorcycles becoming non-functional. Monitoring and backstopping aim to ensure effective implementation of extension programs, provide technical support

to field officers, and address challenges in real time. The objective was to enhance the quality and reach of agricultural advisory services to farmers.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Extension Service Delivery be **NOTED**.

HEC/65/07/25

FARM MANAGEMENT

It was reported for the information of the Committee that the department met its target by training 16 officers in Farm Management. The trainings were held at Lusitu FTC during the period under review. The training covered budgeting, record-keeping, enterprise planning, and resource allocation. The objective was to strengthen the business acumen of extension staff, enabling them to guide farmers in making informed financial and production decisions.

Upon receipt of the item,

It was,

RESOLVED THAT,

The item on Farm Management be **NOTED**.

HEC/66/07/25

AGRICULTURE SHOWS

It was reported for the information of the Committee that Agriculture and Commercial Shows were an important event for our smallholder farmers to showcase various activities in the Agriculture value chain, including the various farming technologies being used to increase Production and productivity. The department successfully facilitated the hosting of three Block Agricultural and Commercial Shows, namely Siangwemu Block, Lusitu Block, and Chikanzaya Block. In addition, the department took a lead role in organizing and participating in the District Agricultural Show held in Chikanzaya. Farmers were able to exhibit and showcase their agricultural innovations, strengthen collaboration with stakeholders and promote farmer engagement. Many thanks goes to the Council Chairperson for gracing the shows and our Councillors for their presence.

CONVERSION OF TENURE BY CHIRUNDU TOWN COUNCIL FOR ZESCO LIMITED

It was reported for the consideration of the Committee an application for conversion of tenure for a parcel of land measuring 250 hectares, for the development of the Kafue Gorge Lower 200MW Solar plant by Chirundu Town Council on behalf of ZESCO limited. This was in accordance with the lands (customary Tenure) (conversion) regulation 4 of the Lands Act Chapter 184 of the laws of Zambia, which states that "*Where a council considers that it will be in the interests of the community to convert a particular parcel of land, held under customary tenure into a leasehold tenure, the council shall, in consultation with the Chief in whose area the land to be converted is situated, apply to the Commissioner of Lands for conversion.*"

The background of the matter was that ZESCO limited in their efforts to expand power generation, diversify the energy mix, and mitigate effects of climate change signed a memorandum of Understanding (MoU) with power China in 2019. The objective of this MoU was to identify suitable sites for the development of utility – scale solar photovoltaic (PV) projects to be connected to the Zambia Interconnected grid power system. Following the feasibility studies conducted on the identified site, the Kafue Gorge Lower (KGL) site located in Mwiinga area in Chirundu district was among the three sites shortlisted for potential development. In 2020, ZESCO held a consultative meeting with Chief Sikoongo and the Royal establishment to discuss the conditions surrounding the allocation of the 250 hectares for the solar project. However, ZESCO having faced financial challenges the project stalled.

In line with the presidential directive that was issued targeting the securing of 1,000 megawatts of solar energy by the end of 2025

through all pending and new projects, a joint venture between ZESCO and JIGSAW Investment Limited was formed in order to develop the KGL 200MW solar PV project. The project will be developed under JIGSCO energy corporation limited, a company jointly owned by ZESCO and JIGSAW.

ZESCO was unable to obtain title due to the injunction imposed on the powers of Chief Sikoongo to alienate land. Therefore, the purpose of this application was based on the interest of the community and general public in light of the prevailing national energy crisis as well as obtaining funding for the project.

Upon a proposal by Councillor Obrey Sintambo and duly seconded by Councillor Robson Makwamba

It was,

RESOLVED THAT

The item be **DEFERRED** with the recommendation that

- 1) The people of Sikoongo Chiefdom form a Community Trust under succession law with the Ministry of Lands.
- 2) The title be given in the name of Sikoongo Community Trust which will lease to ZESCO.

CONFIRMATION OF MINUTES

Upon a proposal by Councillor Obrey Sintambo and duly seconded by HRH Chief Chipeco,

It was,

RESOLVED THAT

The Minutes of the proceedings of the Plans, Works, Development and Real Estates Committee meeting be **CONFIRMED.**

There being no any other business to deliberate the meeting was declared closed at 13:05 hours followed by a closing prayer by HRH Chief Chipeco.

MATTERS ARISING FROM THE PREVIOUS AUDIT COMMITTEE MEETING

It was reported for the information of the Committee that the Committee would recall that during the Audit Committee meeting held on 29th May 2025, and subsequently at the Ordinary Council meeting held on 26th June 2025 at Hamatuba Lodge, the following issues were noted as unresolved matters pending management action. The table below provides the status update following follow-up reviews and verification.

The Section wished to report to the Committee that, following the follow-up review procedures performed, including verification of supporting documentation and reconciliations, the previously unresolved matters were been fully addressed. ***See Appendix 2, 3 and 4***

Upon receipt of the item,
It was;

RESOLVED THAT,

The item on matters arising from the previous Audit Committee meeting be looked at on the actual date of the site visit and Finance Department ensure all needed necessary documents are made available before the committee.

PHYSICAL VERIFICATION OF CDF SKILLS BURSARY BENEFICIARIES FOR THE YEARS 2024 AND 2025

Introduction

It was reported for the consideration of the Committee that the report presented the findings from the physical headcount verification audit of Constituency Development Fund (CDF) Skills Bursary beneficiaries for the years 2024 and 2025. The verification was conducted at three selected institutions: LEBES, Lusaka Business Technical College, Lusaka Vocational Technical College, St Mawaggali and Chawama Youth Skills Training Centre. The objective was to confirm the enrolment status of

beneficiaries, detect discrepancies in records, and reconcile the approved list against physical headcounts.

Audit Objectives

- i. Verify Enrolment: Confirm that students reported to the respective institutions.
- ii. identify Discrepancies: Detect any anomalies between approved bursary records and actual student enrolment.
- iii. Reconcile Headcounts: Ensure alignment between physical headcounts and the official CDF bursary records.

Methodology

It was reported to the Committee that the Audit team conducted on-site visits to each institution, reviewed admission registers, cross-checked National Registration Cards (NRCs), and interviewed students. The official bursary approval lists for 2024 and 2025 were used as the benchmark for verification.

Summary of Findings

1. Livingstone Institute of Business and Engineering Studies (LIBES)

The Internal Audit Section reported the following findings concerning student sponsorship at the Livingstone Institute of Business and Engineering Studies (LIBES):

a) Invoicing for Students No Longer on Sponsorship

It was noted that two students, *Otis Tembo* and *Rodgers Nyimba*, were officially removed from the sponsorship list in 2023. However, the institution had continued to submit invoices to the Council for these students, contrary to their sponsorship status even when Management wrote a letter of sponsorship removal.

b) Student Enrolled in a Non-Approved Course

A review of student records revealed that ***Sarah Tembo*** was enrolled in ***Water Supply and Sanitation Operations*** course at LIBES. This course was not approved by the Technical Education, Vocational and Entrepreneurship Training Authority (TEVETA), and as a result, the student has not written any examinations since enrolment, despite being in her second year.

The administration at LIBES confirmed that the course was not registered with TEVETA but reassured that the student would be allowed to sit for the examinations in December 2025 at no additional cost to the Council. However, it was of concern that the institution knowingly admitted students into a non-accredited programme.

c) Difference in Invoiced Amounts

An analysis of the invoice submitted by LIBES revealed inconsistencies when compared to the approved tuition and examination fee structure issued by the Ministry of Local Government and Rural Development. Upon inquiry, LIBES management attributed the variance to a recent increase in TEVETA examination fees.

Recommendations

- i Management to ensure that LIBES should immediately stop billing the Council for students who were no longer under sponsorship.
- ii Going forward, all sponsored programmes must be verified for TEVETA approval before students were enrolled. In Sarah Tembo's case, the Council should obtain confirmation from TEVETA that she would indeed be eligible to sit for exams in December 2025. Her progress should be closely monitored to ensure that her academic path was valid and recognized.
- iii To address the fee discrepancy, **Management should formally present the invoice variations to the Constituency Development Fund (CDF) Committee and seek clearance and authority from the Provincial Local Government Officer (PLGO)** before any payments are processed. This would help maintain transparency and accountability in the use of public funds.
- iv The Council was encouraged to put in place stronger checks to ensure that only eligible students and approved fees were paid for. This included regular updates from institutions, verification of course approvals, and reconciliation of invoices with the approved sponsorship list. ***See appendix 5***

2. Lusaka Business Technical College

During the audit exercise, all nine sponsored students at Lusaka Business Technical College were physically verified. However, a few concerns were brought to light that merit the Committee's attention.

One student, **Oliver Simunyama**, did not register for the June TEVETA examinations. This was due to a delay in reporting to the institution, which caused him to miss the official registration period and subsequently fail to submit the required TEVETA forms. As a result, Oliver would only be eligible to sit for his examinations in December 2025.

In addition, students at the college raised concerns regarding the disbursement of their food allowances. They explained that these allowances were only made available once the Council had paid funds to the institution, which sometimes led to delays. These delays, in turn, result in challenges in accessing meals and meeting other daily needs posing a hardship for some of the students.

Despite these challenges, the students expressed appreciation for the support they had received. They confirmed that learning was ongoing and that they were actively engaged in both theoretical and practical sessions. Their feedback reflected a general sense of commitment to their studies and gratitude for the opportunity afforded to them through the sponsorship programme.

Recommendations

- i. Management was encouraged to explore ways to ensure students receive their food allowances on time. This could involve strengthening coordination with training institutions by sending the invoice on time.
- ii. Given the positive feedback received from students at Lusaka Business Technical College, particularly their appreciation for the quality of teaching and hands-on practical sessions, **Management may wish to consider encouraging more students to enrol at such institutions in future.** Supporting colleges that demonstrate strong academic delivery and student satisfaction ensures better outcomes and value for the resources invested.

3. Lusaka Vocational and Technical College

It was reported that during the Audit exercise, several issues were identified concerning student sponsorship, institutional coordination, and learning facilities. These were outlined below:

i. Non-Attendance of Sponsored Students – Simon Zimba and Shown Siamatika

It was discovered that two sponsored students, *Simon Zimba* and *Shown Siamatika*, did not report for Term Two. Further inquiry revealed that both students had made personal decisions to withdraw from their studies, despite the Council having already paid tuition fees for the entire academic year on their behalf.

This situation was concerning, as it meant that public funds were committed for services that were not fully rendered. The institution

received payment for all three terms, yet the students only attended Term One.

There was, therefore, a need for the institution to refund the Council the unused portion of the fees specifically for Term Two and Term Three in the amount of K41,400.00, once a full reconciliation had been completed. Recovering these funds would help ensure that the Council can redirect resources to support other deserving students.

ii. Omission of Approved Beneficiary – Tracy Siankuna

The audit also revealed that Tracy Siankuna, who was pursuing a Certificate in Fashion Designing and Textile Technology, was not included on the official list of approved beneficiaries submitted to the institution by the Council. However, Tracy was in possession of a valid sponsorship award letter dated 17th February 2025.

Due to this administrative oversight, no payments had been made to the institution on her behalf. Despite this, the institution had allowed Tracy to remain in school and had been providing her with food allowances a gesture of goodwill that is commendable.

iii. Lack of Workshop Facilities for Practical Courses

It was also observed that the institution did not have dedicated workshop facilities for students enrolled in practical programmes such as Automotive Electrical and Water Supply and Sanitation Operations. These were technical courses that require hands-on training, and the absence of properly equipped workshops significantly compromises the quality of learning and practical skill's development.

iv. Concerns Over Student Conduct and Discipline

During the course of the audit, Management at the institution raised serious concerns regarding the behavior of some sponsored students. It was reported that a number of the students exhibited unruly conduct, including excessive alcohol consumption and disregard for school rules and regulations.

According to the institution's Management, these behavioural issues escalated to a point where sponsored students were believed to have played a central role in a recent riot that occurred on campus. This sentiment was not only expressed by school authorities but also independently echoed by other students at the institution, who

confirmed that the disturbance was largely instigated by the students from Chirundu.

Such conduct reflects poorly on the sponsorship programme and risks tarnishing the reputation of the Council, especially when public funds are being used to support students who may not be upholding expected standards of discipline and responsibility.

Recommendation

- i. Management should formally engage the Management of the institution to reconcile the accounts for **Simon Zimba** and **Shown Siamatika**, who discontinued their studies after Term One, despite the Council having paid tuition fees for the full academic year. Following this reconciliation, arrangements should be made for the refund of the unused Term Two and Term Three fees to the Council.
- ii. To promote prudent financial management, the recovered funds should be channeled towards settling the outstanding tuition fees for **Tracy Siankuna**, a deserving student who was mistakenly omitted from the approved sponsorship list despite holding a valid award letter. ***See Appendix 6***

iv. St. Mawaggali Trades Training Institute

The Audit Section wishes to report that St. Mawaggali Trades Training Institute, located in Choma, currently had two students enrolled under the CDF's Skills Bursaries Programme.

During the review, it was observed that one of the beneficiaries, **Ms. Faustina Chikwanda**, a returning student, encountered challenges regarding her meal allowance. According to her acceptance letter, the institution did not include any provision for meal allowances. In accordance with CDF guidelines, only fees indicated in the official admission documents and approved budget lines are eligible for payment. As such, meal allowances were excluded from her bursary.

However, it was further noted that the school initially submitted an invoice to the Council that included meal allowances, which contradicted the acceptance letter and exceeded the approved fee structure. The Council was unable to process the payment for the meal component due to this inconsistency.

Ms. Chikwanda explained that she is experiencing significant difficulties in accessing regular meals, as her family was facing serious financial challenges. She explained that meeting her daily nutritional needs had become a struggle, affecting her wellbeing and potentially her academic performance.

The students expressed heartfelt gratitude for the support provided through the bursary programme. They shared that their studies were going well and that they were fully engaged in both theoretical learning and practical training activities.

Recommendation:

- i.*** Management, through the Constituency Development Fund (CDF) Committee, should assess Ms. Chikwanda's vulnerability and consider providing additional support to address her meal allowance needs. Where necessary, the Committee should seek approval from the Provincial Local Government Officer (PLGO) to facilitate payment of the meal allowance in accordance with established CDF guidelines. ***See Appendix 7***
- ii. Chawama Skills Training Centre**

During the audit of the 2025 Constituency Development Fund (CDF) Skills Bursaries, several critical observations were made at Chawama Skills Training Centre, a beneficiary institution with three campuses, two situated within Lusaka District and one along the Chirundu–Lusaka Road, known as Punzira Campus.
- iii. Inadequate Infrastructure and Training Resources**

The Centre offers a wide array of vocational programs, including Carpentry and Joinery, General Agriculture, General Hospitality, Automotive Mechanics, Information and Communication Technology (ICT), Welding, Electrical Engineering, Fashion Designing and Textile Technology, Plumbing, and Bricklaying, among others.

However, the audit revealed significant deficiencies in infrastructure and learning resources. Most notably:

 - a)** The Centre lacks well-equipped workshops, essential tools, and machinery required for practical training in most of the listed courses.
 - b)** The Punzira Campus, in particular, lacks access to electricity, yet it offers programs such as Electrical Engineering and ICT, which

fundamentally require power for effective instruction and practical training. As a result, students face significant challenges in their studies due to the absence of electricity.

c) The Centre is currently accredited by TEVETA to offer one program, Fashion Designing and Textile Technology. This means that running any other programs without TEVETA's approval goes against regulatory requirements and was considered non-compliant.

These challenges raise serious concerns about the quality, relevance, and practical effectiveness of the training provided. The situation undermines the Centre's ability to meet the intended objectives of the CDF bursaries, which were meant to empower students with employable, and hands-on skills.

iv. Use of External Facilities for Practical Training

For the Automotive Mechanics program, three (3) students **Fruyer Magabe, Abraham Ng'andu, and Kebby Siakazembwe** were found to be conducting their practical training at an external facility, Jakoo Garage, located near the traffic lights in Kafue.

Although the institution had reportedly entered into a Memorandum of Understanding (MoU) with the garage owner, the need to rely on an external facility further highlights the Centre's inadequate internal capacity to deliver practical instruction.

v. Discrepancy in Student Numbers and Payments

According to list approved by Ministry of Local Government and Rural Development, 44 students were approved for sponsorship under the 2025 CDF Skills Bursaries at the Centre. However, the following was discovered:

- a) Only 40 students physically reported for training, as evidenced by the attendance register signed upon arrival.
- b) Despite this, the institution invoiced the Council for 41 students, and the Council made a payment for 41 students, resulting in a discrepancy of one (1) student.
- c) Further, it was established that **14 students** have since discontinued their studies. This situation calls for immediate reconciliation with the institution and appropriate recovery or refund of unutilized funds for the affected students.

vi. Non-Compliance with TEVETA Standards

Given the gaps identified in infrastructure, training delivery, and reliance on external facilities, the institution does not fully meet the minimum institutional accreditation standards set by the Technical Education, Vocational and Entrepreneurship Training Authority (TEVETA) to offer any program other than *Fashion Designing and Textile Technology* course, for which it was duly accredited. This situation raised serious concerns about the legitimacy of its operations and the long-term sustainability of its training programs under the CDF initiative. ***See Appendix 8***

Recommendation:

The audit findings point to a significant misalignment between the Centre's approved training programs and its actual operational capacity. It was recommended that Management urgently engages the institution to:

- a) Reconcile student numbers and facilitate a refund for unutilized funds.
- b) Conduct a capacity assessment and confirm TEVETA accreditation status.
- c) Ensure that future bursary beneficiaries were only placed at institutions that had been verified to possess adequate training facilities, supported by a due diligence report conducted prior to engagement.

Key Recommendations

- 1. **Due Diligence Prior to Payments** – All institutions and programmes must be verified for TEVETA accreditation, valid enrolment, and correct invoicing before any funds are disbursed.
- 2. **Termly Disbursement of Funds** – Payments should be released on a **termly basis** to reduce the risk of financial loss from student withdrawals or non-attendance.
- 3. **Recovery of Misapplied Funds** – Institutions that invoiced for ineligible, withdrawn, or absent students must refund unutilized funds, which should be redirected to deserving beneficiaries.
- 4. **Enforcement of Compliance** – Only accredited institutions with adequate training facilities should host bursary students to ensure quality learning and accountability.

5. **Strengthened Monitoring** – Management should obtain regular attendance reports, reconcile invoices with approved sponsorship lists, and promptly track withdrawals or disciplinary issues.
6. **Student Welfare Support** – Where justified, Management should assess vulnerable students' needs (e.g., meal allowances) and seek PLGO approval before providing additional support.
7. The Committee to form an Ad hoc Committee which would be part of the team monitoring students on CDF bursaries.

Upon a proposal by Councillor Norman Nalube, duly seconded by Wilfred Mweene,

It was,

RESOLVED THAT

The item on Physical Verification of CDF Skills Bursary Beneficiaries for The Years 2024 and 2025 be **APPROVED** with the following recommendations;

- i. Legal action be taken on Chawama Skills Training Center to refund the money totaling **K825, 100** paid to them upon discovering that the institution had some courses not accredited to TEVETA.
- ii. Moving forward Management to ensure only paying for students on Constituency Development Fund sponsorship after conducting inspections of the institutions.
- iii. **COMPOSITION OF AD HOC COMMITTEE**
Upon a proposal by Councillor Norman Nalube, duly seconded by Wilfred Mweene,

It was,

RESOLVED THAT

Audit Committee members be part of the team that monitors Students on CDF Skills bursary beneficiaries

2023–2024 CONSTITUENCY DEVELOPMENT FUND (CDF) COMMUNITY PROJECT

It was reported for the consideration of the Committee that the objective of this audit was to conduct physical verification and monitoring of selected Constituency Development Fund (CDF) projects implemented under the 2023 and 2024 allocations. The audit aimed to assess project progress, compliance with contractual terms, and quality of works delivered.

Summary of Project Findings:

1. Construction of a Staff House at Lusitu East Primary School (2024)

Contractor: Great Ambition

Observations:

The audit noted that while the project has reached completion, it had not yet been formally handed over to the beneficiary community. Further inspection revealed certain defects, including visible cracks on the ramp, structural cracks on the living room floor, and a bathroom mirror broken at the bottom-left corner. These deficiencies point to weaknesses in quality assurance and contract supervision, and corrective measures should be undertaken prior to final handover to ensure compliance with specifications and value for money. **See the attached images below:**

Ramp

Mirror

Living Room floor

Risks/Implications:

1. **Financial Risk:** Additional costs may be incurred to correct defects if they were not rectified before handover, leading to possible financial loss to the Local Authority.
2. **Compliance Risk:** Handover of a defective project would indicate non-compliance with contract specifications and government guidelines on project quality standards.
3. **Safety Risk:** Structural cracks pose safety hazards to the community members who would use the facility, exposing the Local Authority to potential liability.

Recommendations to Management:

1. **Defect Rectification:** Ensure that the contractor addresses all identified structural defects, including the ramp and living room cracks as well as the broken mirror, prior to project handover.
2. **Quality Assurance:** Strengthen supervision and quality control mechanisms by requiring regular site inspections qualified engineers before certifying works for payment.
3. **Retention Enforcement:** Withhold a portion of the contract sum (retention money) until all defects have been rectified and the project had been formally handed over in compliance with specifications.

by

2. Construction of Two Staff Houses at Pambazana Primary School (2024)

Contractor: Tyonark

Observations:

During the audit inspection, it was observed that no contractor or foreman was present on site, and the project appeared to have been abandoned. Efforts to contact the contractor by phone did not yield a conclusive explanation for the absence, although the contractor later attributed the stalling of works to delayed remittance of funds by the Local Authority. This situation raised concerns over project supervision, contractor commitment, and the effectiveness of fund disbursement mechanisms. The absence of active works on site poses a risk of project cost overruns, deterioration of partially completed structures, and delayed service delivery to the intended beneficiaries. The audit established that, as at the time of inspection, the structure was only 54% complete despite the contractor having already been paid 64% of the total

contract sum. This variance indicates a mismatch between financial and physical progress, suggesting weaknesses in contract management and payment certification processes

Risks/Implications

1. **Financial Risk:** Payment in excess of work completed exposes the Local Authority to potential financial loss in event of project abandonment.
2. **Operational Risk:** The stalled project may delay service delivery to the intended community, undermining the objectives of the CDF programme.
3. **Asset Deterioration Risk:** Prolonged stalling increases the likelihood of deterioration of partially completed works, leading to higher costs of completion.

the

Recommendations to Management

1. Strengthen Payment Controls: Ensure that future payments are strictly aligned to verified physical progress, supported by engineer/site supervisor certifications.

2. Escalation of Non-Performance: Where the contractor fails to comply with agreed timelines and performance standards, Management should invoke contract provisions such as liquidated damages, performance guarantees, or contract termination, in line with the Public Procurement regulations and contract terms.

3. Construction of a 1x3 Classroom Block in Namabuyu (2024)

Contractor: Tyonark

Observations:

The audit inspection revealed that several critical components of the project remain incomplete. At the time of the audit, the project was 93% complete; however, key works including the installation of solar panels, completion of plumbing in the ablution block, and fitting of window glasses had not been carried out. These incomplete works indicate delays in project execution and highlight weaknesses in contractor performance and supervision. If not addressed promptly, these deficiencies could result in cost overruns, compromise the functionality of the facility, and delay service delivery to the intended beneficiaries.

4. Construction of a Toilet and 1x3 Classroom Block at Sikongo Skills (2024)

Project: Ablution Block (Fremlex) and Classroom Block (Money Hardware)

Observation:

At the time of the audit inspection, both the Ablution Block and the Classroom Block were fully constructed; however, they were still pending formal handover to the beneficiary community. While the structures appeared complete, the absence of official handover suggests gaps in project close-out procedures.

Risks/Implications

1. Delayed handover may lead to deterioration of the structures and increase the risk of vandalism.

Recommendations to Management

1. Expedite formal handover and ensure proper documentation.
2. Conduct final inspections to address any defects before handover.
3. Strengthen internal procedures to ensure timely handover in future projects

5. Construction of 1x3 Classroom Block and Ablution Block at Chipepo (2024)

Project: 1 × 3 Classroom Block and Ablution Block (Contractor: Money Hardware)

Observation:

During the audit inspection, it was observed that the contractor was present on site and actively engaged in works. The inspection revealed that the Ablution Block was approximately 90% complete, with only final finishes and fittings remaining. In contrast, the 1 × 3 Classroom Block had been fully completed.

It was further noted that the project had experienced delays against the original completion schedule, necessitating an extension of time. Consequently, the contractor was granted an extension of time up to 26th May 2025 to allow for the completion of outstanding works and final certification.

Risk/Implication:

Delays in project completion increase the risk of cost overruns, deterioration of partially completed works, and delayed service delivery to the intended beneficiaries. Furthermore, prolonged projects may undermine value for money and weaken public confidence in project implementation and contract enforcement.

Recommendation:

Management should strengthen contract management and monitoring mechanisms to ensure timely completion of projects. This included enforcing contractual timelines, applying penalties promptly where necessary, and enhancing supervision to safeguard project deliverables and prevent delays that may negatively affect service delivery. ***See appendix 9***

**6. Construction of Staff House and Ablution Block at Siabulembo Primary School 2024
(Contractor: Tyonark)**

Observation:

The audit inspection established that the project had experienced delays in completion. At the time of inspection, the contractor was not present on site, and the project was only about 70% complete, with critical outstanding works such as the installation of glass windows and ceiling fittings still pending. Consequently, the project completion period was initially extended to 14th February 2025 and subsequently further extended to 11th August 2025. In addition, the project cost increased due to a contract variation amounting to **K 49,215** added to the original contract sum of **K 991, 795.86**

Risk/Implication:

Delayed project completion increases the risk of cost overruns, additional financial burden from contract variations, and potential deterioration or vandalism of works. Repeated extensions also highlighted weaknesses in contractor commitment, supervision, and project management, which might ultimately compromise value for money and delay service delivery.

Recommendation:

Management should enforce strict contract administration and supervision, granting extensions only with justification, closely monitoring variations, and applying contractual penalties to ensure projects were completed on time, within budget, and according to scope. **See Appendix 8**

**7. (a) Construction of a 1x 3 Classroom Block at Katwezele Community School 2023
(Contractor: Kamusime Engineering)**

Project Observation:

During the audit inspection, it was noted that the project was approximately 90% complete and had experienced some delays. Some windows and glass panels required attention, and the installation of the strongroom door was still pending. Despite the incomplete works, one classroom had already been put into use by the school. The partial use of the facility before full completion

highlights the need for careful monitoring to ensure that outstanding works were completed promptly, safety standards are maintained, and the facility functions as intended.

Recommendations to Management

1. Ensure that all outstanding works, including windows, glass panels, and the strongroom door, were completed promptly.

7 b. Construction of 1 x 3 Classroom Block, 1 Staff House, 1 Solar-Powered Borehole, and Ablution Block

Observation:

During the audit inspection, it was established that the construction of the 1 × 3 Classroom Block had been completed and was ready for use. However, the following works were observed to be outstanding:

- The Ablution Block had not been fully completed as the floor and wall tiles were not fitted, and the internal doors had not been installed.
- The Staff House was incomplete, with internal doors yet to be fitted.
- The Solar-Powered Borehole had not been drilled and installed. The contractor reported that initial attempts had resulted in dry boreholes, but no alternative water source solution had been provided.

or

The contract value for the project was **K1,309,311.15**, against which the contractor had been paid **K1,278,872.94**, leaving a balance of **K30,438.21**. This represents **97.70% of the contract sum**, inclusive of part of the retention.

While the payment records (both Ledger and Bank statement) show that the contractor had already received **97.70%** of the contract amount, the physical progress of the project does not correspond with the reported completion percentage. Critical components, such as the borehole and finishing works, remain incomplete, thereby overstating the project completion status. **See the pictures below:**

Inside Toilet

Toilet outside view

Risk/Implication:

Loss of public Funds

Recommendation:

1. Management should ensure that the contractor completes all outstanding works, particularly the solar-powered borehole and building finishes, before any further payments were made.
2. Future payments, including retention, must strictly be linked to verifiable completion of works and certified by supervising engineer.
3. In cases where the contractor fails to deliver, Management should consider invoking contractual remedies, including performance guarantees and retention deductions, to safeguard public resources.

the

8. Construction of a 1x2 Classroom Block and Ablution at Zalaunga (2024)

Contractor: Colpru Services Ltd

Observations:

During the inspection of the facility, it was observed that several construction works had remained incomplete or required rectification. Specifically, one door had not been installed, cover strips for the boards were missing, ceiling panels and ablution area tiles had not been installed, and one squat toilet required rework.

Recommendations:

Management should ensure that all outstanding works were completed, the defective toilet was rectified, and a final quality inspection was conducted to confirm that the facility meets the required standards.

Upon a proposal by Councillor Norman Nalube and duly seconded by Councillor Wilfred Mweene,

It was,

RESOLVED THAT

The meeting be **ADJOURNED** for the site visit on the date to be communicated later before 3rd Ordinary Council meeting with recommendation

that the engineering estimates should always be realistic to the projects and avoid under estimating projects thereby resulting in unnecessary project varying.

MATTERS ARISING FROM THE PREVIOUS AUDIT COMMITTEE MEETING

It was reported for the information of the Committee that the Committee would recall that during the Audit Committee meeting held on 29th May 2025, and subsequently at the Ordinary Council meeting held on 26th June 2025 at Hamatuba Lodge, the following issues were noted as unresolved matters pending management action. The table below provides the status update following follow-up reviews and verification

ISSUE	PREVIOUS STATUS	CURRENT STATUS	RECOMMENDATION
Missing Payment Vouchers	Identified during the meeting of 29th May 2025; pending submission of supporting documents by management.	Supporting documents reviewed and verified; matter fully resolved.	No further action required.
Unsupported Online Payments	Identified during the meeting of 29th May 2025; pending reconciliation and evidence of payment authorization.	Reconciliation completed, authorization confirmed, and documentation reviewed; matter fully resolved.	No further action required.
Unacquitted Payments	Identified during the meeting of 29th May 2025; pending settlement and supporting documentation.	Payments have been acquitted and supporting documentation verified; matter fully resolved.	No further action required.

shed to report to the Committee that, following the follow-up review procedures performed, including verification of supporting documentation and reconciliations, the previously unresolved matters were been fully addressed. ***See Appendix 2, 3 and 4***

Upon receipt of the item,
It was;

RESOLVED THAT,

The item on matters arising from the previous Audit Committee meeting be **NOTED** with recommendation that Internal Audit to ensure missing information is filled in before 3rd O.C meeting.

2023–2024 CONSTITUENCY DEVELOPMENT FUND (CDF) COMMUNITY PROJECT

Upon a proposal by Councillor Norman Nalube and duly seconded by Councillor Wilfred Mweene,
It was,

RESOLVED THAT

The meeting be **ADJOURNED** for the site visit on the date to be communicated later before 3rd Ordinary Council meeting with recommendation that the engineering estimates should always be realistic to the projects and avoid under estimating projects thereby resulting in unnecessary project varying.

AFTER THE SITE VISIT,

Upon a proposal by Councillor Wisdom Hakubija and duly seconded by Councillor, Wilfred Mweene

It was,

RESOLVED THAT,

The item on 2023–2024 Constituency Development Fund (CDF) Community Project be **DEFERRED** to Management to ensure that they provide full details on the variation on Katwezele Community School project before 3rd Ordinary Council meeting with recommendation that the engineering estimates should always be realistic to the projects and avoid under estimating projects thereby resulting in unnecessary project varying.

CONFIRMATION OF MINUTES

Upon a proposal by Councillor Wilfred Mweene and duly seconded by Councillor Wisdom Hakubija,

It was,

RESOLVED THAT

The Minutes of the proceedings of the Internal Audit committee site visit meeting be **CONFIRMED**.

There being no any other business to deliberate the meeting was declared closed at 15:07 hours followed by a closing prayer by Council Secretary Embassy M. Cheembo.

SPWDREC/01/09/25

CONVERSION OF TENURE BY CHIRUNDU TOWN COUNCIL FOR ZESCO LIMITED

It was reported for the consideration of the committee an application for conversion of tenure for a parcel of land measuring 250 hectares, for the development of the Kafue Gorge Lower 200MW Solar plant by Chirundu Town Council on behalf of ZESCO limited. This was in accordance with the lands (customary Tenure) (conversion) regulation 4 of the Lands Act Chapter 184 of the laws of Zambia, which states that "***Where a council considers that it will be in the interests of the community to convert a particular parcel of land, held under***

customary tenure into a leasehold tenure, the council shall, in consultation with the Chief in whose area the land to be converted is situated, apply to the Commissioner of Lands for conversion.”

The background of the matter was that ZESCO limited in their efforts to expand power generation, diversify the energy mix, and mitigate effects of climate change signed a memorandum of Understanding (MoU) with power China in 2019. The objective of this MoU was to identify suitable sites for the development of utility – scale solar photovoltaic (PV) projects to be connected to the Zambia Interconnected grid power system. Following the feasibility studies conducted on the identified site, the Kafue Gorge Lower (KGL) site located in Mwiinga area in Chirundu district was among the three sites shortlisted for potential development. In 2020, ZESCO held a consultative meeting with Chief Sikoongo and the Royal establishment to discuss the conditions surrounding the allocation of the 250 hectares for the solar project. However, ZESCO had faced financial challenges hence the project stalled.

In line with the presidential directive that was issued targeting the securing of 1,000 megawatts of solar energy by the end of 2025 through all pending and new projects, a joint venture between ZESCO and JIGSAW Investment Limited was formed in order to develop the KGL 200MW solar PV project. The project would be developed under JIGSCO energy corporation limited, a company jointly owned by ZESCO and JIGSAW.

ZESCO was unable to obtain title due to the injunction imposed on the powers of Chief Sikoongo to alienate land. Therefore, the purpose of this application was based on the interest of the community and general public in light of the prevailing national energy crisis as well as obtaining funding for the project. (see attached appendix)

Upon a proposal by Councillor Obrey Sintambo and duly seconded by Councillor Robson Makwamba

It was,

RESOLVED THAT

the meeting be **ADJOURNED** to 15th September, 2025 to allow for Community engagement.

There being no any other business to deliberate the meeting was declared closed at 13:05 hours followed by a closing prayer by HRH Chief Chipeco.

FVCUGPC/12/10/25 MINUTES OF THE COUNCIL ADVOCATE CRIMINALS CASES

THE PEOPLE v CHARLES KAPILA

It was reported for the information of the Committee that Chirundu Town Council was involved in the matter of ***The People v Charles Kapila***. The accused, Charles Kapila, of Chirundu District, was charged with six counts, three counts of Forgery contrary to Section 347 of the Penal Code, and three counts of Uttering False Documents contrary to Section 352 of the Penal Code.

The particulars of the offence are that, the acts were committed on 27th May, 2025, and involved the forgery and fraudulent issuance of Zambia Revenue Authority (ZRA) receipts, falsely purporting to be legitimate documents from ZRA and the Chirundu Town Council. The forged documents were issued to truck drivers, namely Nyasha Fenyere and Godfrey Kakuyo. In all counts, Charles Kapila, acting with unknown accomplices, forged payment

receipts bearing various ZRA receipt numbers and amounts, including payment receipts amounting to Two Hundred Kwacha (K200) only and Twenty-Eight United States Dollars (\$28) only. These forged documents were then fraudulently presented to the truck drivers.

During sentencing, the accused was ordered to pay a fine of Two Hundred Kwacha only (K200) for Counts 1, 2, 4, 5 and 6, and Twenty-Eight United States Dollars (\$28) for count 3. He was also sentenced to six months imprisonment to run concurrently starting from the date of sentence. The judgment was delivered at Siavonga Magistrate Court before Honourable Matakala. ***Refer to Appendix 10***

THE PEOPLE v BORNFACE MANDENGU AND MIKE SIAMUZWE

It was reported to the Committee that Chirundu Town Council was involved in the matter of ***The People v Bornface Mandengu and Mike Siamuzwe***. The accused, Bornface Mandengu was charged with all four counts of Forgery contrary to Section 347 and Uttering False Documents contrary to Section 352 of the Penal Code in the indictment and Mike Siamuzwe was charged with two counts of Uttering False Documents contrary to Section 352 of the Penal Code.

The particulars of the offences are that the acts were committed on 26th May, 2025, and involved the forgery and fraudulent issuance of Zambia Revenue Authority (ZRA) receipts, falsely purporting to be legitimate documents from ZRA and Chirundu Town Council. The forged receipts bore payment amounts of Two Hundred Kwacha (K200.00) and Three Hundred United States Dollars (\$300.00) and were issued to a truck driver named Angelo Victor. T

he accused persons, whilst acting together, forged the payment documents and fraudulently presented them as genuine.

Both accused persons were ordered to pay a fine of Two Hundred Kwacha (K200.00) only and Three Hundred United States Dollars (\$300.00) only. Mike Siamuzwe was sentenced to nine months imprisonment for both counts to run concurrently from the date of sentence and Bornface Mandengu was sentenced to nine months imprisonment for all four counts to run concurrently. ***Refer to Appendix 11***

THE PEOPLE v BERNARD MUNGAZI, VICTOR TEMBO AND JOSEPH MACHETE

It was reported to the Committee that, Chirundu Town Council was involved in the matter of ***The People v Bernard Mungazi, Victor Tembo and Joseph Machete***. The accused persons of Chirundu District, were charged with four counts, three counts of Forgery contrary to Section 347 of the Penal Code, and three counts of Uttering False Documents contrary to Section 352 of the Penal Code.

The particulars of the offences are that the acts were committed on 27th May, 2025, and involved the forgery and fraudulent issuance of Zambia Revenue Authority (ZRA) payment receipts, purporting to be genuine ZRA documents. The forged receipts were in the amounts of Two Hundred Kwacha (**K200.00**) and Fourteen United States Dollars (**\$14.00**) respectively. These falsified documents were then fraudulently presented to Winston Makusha, a truck driver, as ZRA receipts. The accused acted jointly in the creation and uttering of these false documents, which were passed off as true documents to the truck driver.

In the above case, Bernard was found guilty of count four and was ordered to pay a fine of Fourteen United States Dollars (\$14.00) only, and sentenced to nine months imprisonment to begin on the day of sentencing. The other three counts of all the accused persons are pending conviction and sentencing which will be held on the 30th of September, 2025. ***Refer to Appendix 12***

Upon receipt of the item,

It was,

RESOLVED THAT

The item on Criminals Cases be **NOTED**

(REPORTED FOR INFORMATION OF THE COUNCIL)

ITEM 02: SOUTHERN PROVINCE EXPO

I wish to inform the Council that Southern Province will be holding an expo from 12th October, 2025 to 16th October, 2025. All districts are encouraged to market their districts to lure investors and increase Foreign Direct investments (FDI).

Chirundu District has untapped potential in Agriculture, livestock especially goats and sheep, tourism, and hospitality industries trade and commerce owing to a fast growing population.

There is also untapped minerals potential in the district. Solar energy is another potential that has remained untapped. With more than 10 hours of serious heat Chirundu has potential for renewable energy that can help the country overcome the energy poverty.

It is hoped that this expo will open the District to more investments.

(REPORTED FOR INFORMATION OF THE COUNCIL)

ITEM 03: REPORT ON THE MATCHING GRANT FACILITY (MGF) FOR LIVESTOCK FARMERS IN CHIRUNDU DISTRICT

I wish to inform the Council that the Matching Grant Facility (MGF) for Livestock Farmers in Chirundu District, funded by the International Fund for Agriculture Development (IFAD) through the Ministry of Fisheries and Livestock

The Ministry of Fisheries and Livestock, through the E-SLFP (Enhanced Smallholder Livestock Farmer Productivity) Organization, has introduced a Matching Grant Facility (MGF) for livestock farmers in Chirundu District. This report provides an overview of the MGF, its objectives, eligibility criteria, and application process.

The primary objective of the MGF is to increase productivity, scale innovations, and strengthen market linkages among livestock farmers in Chirundu District. The grant aims to support eligible farmers in various categories, enabling them to access funding for their projects.

Eligibility Criteria

The MGF is open to livestock farmers who fall into one of the three categories:

1. Window One: Smallholder Farmers

- Eligible farmers are those with 1-3 animals.
- Co-financing requirement: 50% of the total project cost, either in cash or in kind.
- Funding range: **K25, 000 to K150, 000.**

2. Window Two: Cooperatives and Registered Groups

- Eligible groups include registered cooperatives, youth groups, and other related groups.
- Funding range: **K150, 000 to K500, 000.**
- Co-financing requirement: 50% of the total project cost, either in cash (for private businesses) or in cash or in kind (for cooperatives).
- Eligible activities include chilling milk tanks, silage units, and other related projects.

3. Window Three: Large Grants/Strategic Investments

- Eligible applicants include private firms, consortiums, large cooperatives, and other strategic investors.
- Funding range: **K500, 000 to K2, 500,000.**

- Co-financing requirement:

50% of the total project cost, in cash only, with verified financial capacity.

Application Process-

Applications are available at the Ministry of Fisheries and Livestock office in Chirundu District.

- The application period opens on September 23, 2025, and closes on October 23, 2025.
- Completed applications should be submitted to the office of the Marketing Officer or Livestock and Production Officer at the Ministry of Fisheries and Livestock, Chirundu District office.

Recommendations

Council Secretary is requested to:

- Disseminate information about the MGF to eligible The District Commissioner, Council Chairperson and stakeholders in Chirundu District.
- Encourage eligible officers (farmers) to apply for the grant and provide support in the application process.
- Monitor the progress of projects funded by the MGF and ensure that they align with the district's development plans and priorities.

The Matching Grant Facility provides a significant opportunity for livestock farmers in Chirundu District to access funding for their projects and improve their productivity, innovation, and market linkages. It is essential that eligible farmers take advantage of this opportunity and submit their applications within the specified timeframe.

(REPORTED FOR INFORMATION OF THE COUNCIL)

ITEM 04: REPORT ON BRAND MARKS FOR ANIMAL IDENTIFICATION AND TRACEABILITY

I wish to inform the Council on **the Animal Identification and Traceability Act No. 2 of 2024** mandates the use of brand marks for livestock identification and traceability. This report provides an overview of brand marks, their importance, and the procedures for acquiring them.

A brand mark is a unique identification number or symbol that is permanently marked on an animal's body, usually through hot branding, freeze branding, or ear tagging.

Why Brand Animals?

1. Legal Proof of Ownership: Brand marks serve as legal proof of ownership, deterring livestock theft and rustling.
2. Easier Tracking and Management: Brand marks facilitate easier tracking and management of livestock, enabling breed identification and record-keeping.
3. Market Traceability: Brand marks enable market traceability, ensuring that animals can be tracked throughout the supply chain.

Animals to be Branded- Cattle: Hot branding or freeze branding is recommended.

- Goats and Sheep: Ear tagging or liquid nitrogen marking is recommended.

Benefits of Brand Marks

1. Deterrent to Theft: Brand marks deter livestock theft and rustling.
2. Permanent Identification: Brand marks provide permanent identification for animals.
3. Low Maintenance: Brand marks require low maintenance, reducing the need for replacement.
4. Easy Head Management: Brand marks facilitate easy head management and record-keeping.
5. Government and Legal Compliance: Brand marks are a legal requirement, as per the Animal Identification and Traceability Act No. 2 of 2024.

Consequences of Not Branding Animals

1. No Registration or Movement Permit: Farmers who do not brand their animals will not be allowed to register or acquire a movement permit for unbranded animals.

2. Destruction of Animals: Animals moved without brand marks may be destroyed, as per the Animal Health Act of 2010.

3. No Access to Abattoir: Farmers without brand marks may not have access to abattoirs.

Procedure for Acquiring Brand Marks

1. Obtain a Form: Farmers can obtain a free form from the Ministry of Livestock Department at the district level.

2. Pay the Required Fee: A payment of K133 is required for new applications.

3. Submit the Form: Completed forms should be submitted to the designated office.

4. Renewal: Brand marks need to be renewed every 5 years, and renewal is free for existing brand marks.

5. Special Brand Marks:

An additional fee of K1, 333 is required for special brand marks.

Recommendations

1. Encourage Farmers to Brand Animals: Farmers are encouraged to acquire brand marks and brand their animals at visible places.

2. Ensure Proper Branding:

Farmers should ensure that brand marks are applied in a way that promotes healing and legal recognition.

3. Avoid Branding Sensitive Areas: Farmers should avoid branding on the neck, face, genital areas, or other sensitive parts of the animal.

Brand marks are an essential tool for livestock identification and traceability. Farmers are encouraged to acquire brand marks and comply with the Animal Identification and Traceability Act No. 2 of 2024 to avoid consequences and ensure the integrity of the livestock industry.

NB: The information has been disseminated to all 12 wards of the district. The department is expecting to raise not less than 2, 500, 00 ZMK ON BRAND MARKS.

(REPORTED FOR INFORMATION OF THE COUNCIL)

ITEM 05: TRALARD PROJECT IN CHIRUNDU DISTRICT

I wish to report to this August house that, Chirundu District will be among the 10 Districts selected in Southern Province that are expected to benefit from the TRALARD Phase 2 project being implemented in Luapula, Northern and Muchinga has been extended to Southern, Copperbelt and Central Provinces worth **US\$138 Million.**

TRALARD project, also known as the Transforming Landscapes for Resilience and Development project, is a World Bank-funded initiative in Zambia aimed at improving natural resource management and promoting sustainable livelihoods. It focuses on building community resilience to climate change by addressing environmental challenges and supporting economic development in vulnerable landscapes.

The TRALARD 2 Project will focus predominantly on consolidating and scaling efforts in the named districts in order to deal with land degradation and climate risks as the country's economy and livelihoods is highly dependent on its natural resources.
