2. Rhoidah Chifulo- Community Development Officer
3. Christone Buumba-Foreman
4. Charity Namukamba-Ass. Community Development Officer
4. Lubinda Phumulo-Foreman

Attached is an attendance list.

The Zambia Devolution Support Programme (ZDSP) is a five (5) year government initiative programme designed to strengthen the Decentralization process and support the government's response to the country's drought emergency program. It is supported by the World Bank with a financing amount of \$210 million.

The program focuses on enhancing the capacity of local authorities to deliver quality services by improving their financial management, institutional performance and accountability.

Chirundu Town Council is one of the councils that qualified for this grant and it was noted that projects to be identified were to be in line with proposed projects in the Integrated Development Plan. It's for this reason that Chirundu Town Council held a community engagement meeting in Chirundu West and Chirundu Central Ward for the approval project to construct a 1.5 KM Road from 22 Corners to all through to the new Civic Centre.

Further, the community members were informed about the nature of funding for the project as well as the project scope and that all project investments under the program will be subject to screening and preparation of relevant instruments as detailed in the Environmental and Social Risk Management Manual and in the Program Operation Manual (POM).

UTILIZATION OF THE GRANT

It was made mention that the Capital Grant could only be used to finance the, or Construction, Rehabilitation and Maintenance of Local Infrastructure projects such as:

- Feeder Roads
- Public Toilets
- Public Markets
- Public Parks
- Water and Sanitation
- Waste Management
- Street Lighting

-Community Facilities

The Community members were further informed that, Capital grants provided under the program, cannot be utilized for funding the following types of activities;

- Investment made outside of the annual plans

- Purchase of vehicles

- Construction and furnishing of LA offices

- Residential accommodations

- Investments in loans, other micro-credit schemes and other securities

- Acquisition of land

- Any projects that may involve forced displacement or resettlement

- Activities that overlook the rights and privileges of women and other vulnerable groups like mentally/physically challenged etc.

- Activities that are for exclusive use of religious purposes

- Activities likely to cause damage /potential threat to wildlife, forest especially in protected and conserved areas.

GENERAL CONCERNS

There were a number of concerns that were raised from the community among them, are the following;

Employment Creation: the community wanted clarity on whether there would be any job offers for the local people once the project commences.

In response, it was made mention that once the contractor is on site they would need unskilled labour depending on the nature of works to be done and would engage the locals.

Scope of road works: the community questioned whether the road would be expanded since it had limited spaces in some areas and whether there would be

compensations for the property owners that have infrastructures just right along the road if need be.

In response, the community was informed that there would be no road expansions but rather just improving the already existing road and there would be no impact on properties that are along the road.

Conclusion

The engagement was successful and the community welcomed the project and are patiently waiting for the project to commence.
