2. OPENING REMARKS

The Chairperson explained that the objective of the 2025 Budget consultation was to train members of the Ward Development Committees (WDCs) in the identification of community priorities for the 2025 annual budget and to promote inclusive citizen participation in the budgeting process. Each ward meeting was structured to equip the participants with the necessary skills to plan and implement community development projects.

3. INTRODUCTION TO THE INTEGRATED DEVELOPMENT PLAN (IDP):

The Chairperson provided an overview of the District's Integrated Development Plan (IDP), explaining the vision for the next 10 years and the specific provisions for each ward. This segment emphasized the link between community priorities and the district's broader development strategies.

i. Socio-Resource Mapping:

Participants worked in groups to draw socio-resource maps of their wards. These maps highlighted:

- a. Social characteristics of the community (e.g., demographics, vulnerable groups).
- b. Key resources within the community (e.g., natural resources, infrastructure, facilities).
- c. Potential problems and needs, which were later discussed in-depth.

ii. Group Activities:

In smaller groups, participants examined previous community projects and assessed the reasons for their successes or failures.

They analyzed the following key points:

- a. Reasons for Success: Community involvement, government support.

- b. Reasons for Failure: Insufficient funding, lack of community ownership.
- c. Lessons Learned: Strategies for avoiding previous pitfalls and improving future initiatives. Project Identification and Prioritization Review of Previous Projects: Each group reviewed the success and failure of prior community projects to draw lessons for future initiatives. A few of the key projects discussed were:
 - d. Skills Training Centre: Still under construction due to limited funding.
 - e. Teacher Housing: Lack of funding has hindered progress.

4.CDF COMMUNITY PROJECT APPLICATIONS:

Participants reviewed current applications for the Constituency Development Fund (CDF), comparing these with the IDP provisions and the community's evolving needs.

Pairwise Ranking Matrix:

A pairwise ranking exercise was conducted to prioritize key community problems. Each group assessed which issues, if resolved, would have the most significant positive impact on the ward.

These priorities were mapped onto the socio-resource map as follows;

- b. Construction of Government Hospital
- c. Construction of Water system
- d. Construction of Schools and Staff Houses

6. CONCERNS FROM COMMUNITY STAKEHOLDERS

- i. The members emphasized that the Council should follow what they budgeted for and deliver the services accordingly.
- ii. The members were impressed to see the cash for work on the budget and emphasized to be paid immediately after the work, not being paid after a week. Furthermore, the members requested that the council should be using one mobile network for payments.
- iii. The members were excited about the increment in CDF and looked forward to seeing more tangible development in Chirundu.
- iv. The members proposed the consideration of road works in all wards under the ZDSP.

After lengthy discussion, the Council resolved that;

- a. Road Works, Construction of Schools and Water systems would be considered under ZDSP and CDF through applications from WDC .
- b. Cash for Work payments would be paid through mobile money i.e Airtel and MTN mobile money.

7. KEY TAKEAWAY AND NEXT ACTIONS

The key takeaway from the meetings was the need for continued engagement and follow-up.

The next actions identified for each ward were:

- i. Follow-up Meetings: To review progress on prioritized projects and ensure that community members remain engaged.
- ii. Capacity Building: Ongoing support and training for WDC members to increase their ability to manage and implement projects effectively.

8. CLOSING REMARKS

The training sessions provided invaluable insights into the local development processes and highlighted the importance of community participation. The prioritization exercises were successful in identifying key issues facing each ward, and the discussions around the IDP ensured that these priorities align with the district's overall goals. Participants agreed to forward the prioritized projects to the relevant ward for implementation. The training reinforced the need for a collaborative approach between local government, WDC members, and community stakeholders to drive the district's development agenda. The facilitators concluded the sessions with a commitment to continuous support and follow-up to ensure that the identified priorities are effectively addressed.

There being no further business to transact, the meeting was declared officially closed at 12:00hrs.
